The cover features a hand holding a green pencil, pointing towards a large, colorful circular graphic. The graphic has a multi-colored border and contains the title text in a bold, white, sans-serif font. The background is a black field filled with white line-art icons of various engineering symbols, including resistors, capacitors, and integrated circuits. Some of these icons are partially colored in yellow, orange, and blue.

Engineering Coloring Book for Adults

Table of Contents

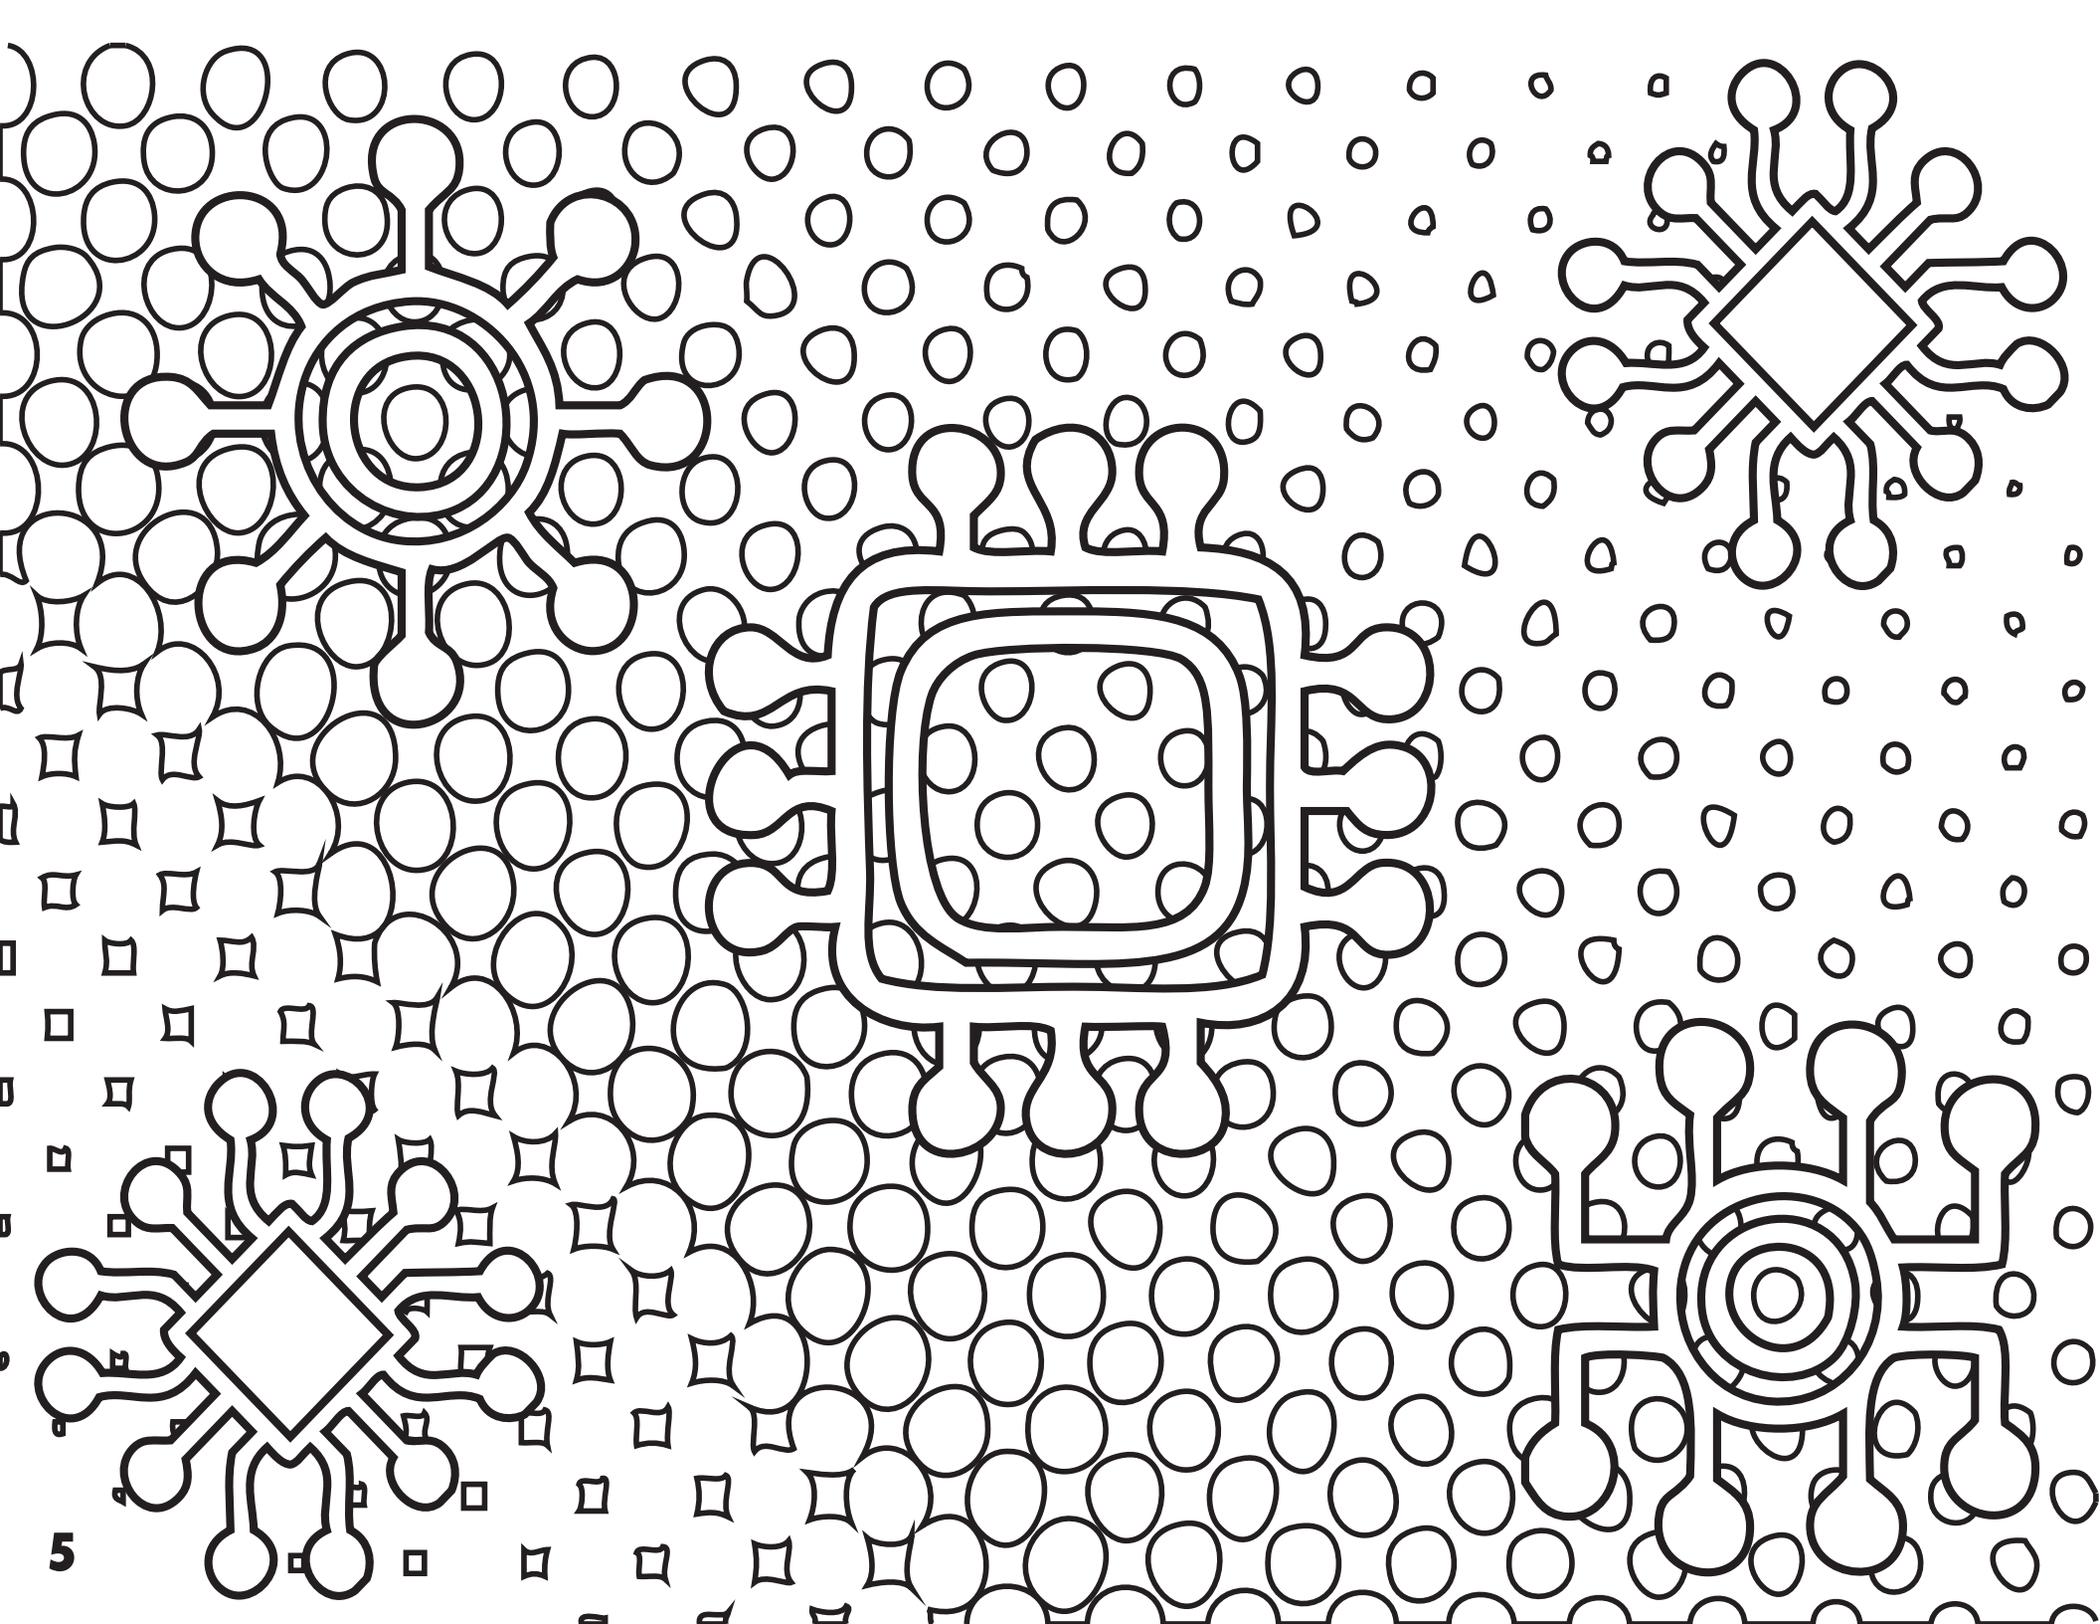

- 1 Light Bulb with Gears**
- 2 Circuits on Black Background**
- 3 Circuit Growing**
- 4 Volta**
- 5 Circuits Dot Pattern**
- 6 Circuit Wallpaper**
- 7 Electronic Symbols**
- 8 Tesla**
- 9 Circuit Symbol Pattern**
- 10 Circuit Board**
- 11 Morse**
- 12 Electronic Mirror Pattern**
- 13 Technology Symbols**
- 14 Edison**
- 15 Wires**
- 16 Circuit Symbols Scattered**
- 17 Mixed Circuits**
- 18 Circuit Board Oval**
- 19 Kilby**
- 20 Technology Cloud**
- 21 Wires Sparking**
- 22 Brain Circuits**
- 23 Technology Pattern**
- 24 Circuit Symbol Circled Pattern**
- 25 Head with Circuits**
- 26 About the Author**

About the Author

Jeff Knurek, Jumble cartoonist, is an award winning toy and game inventor, consumer product developer, graphic artist, illustrator, cartoonist, and puzzle creator. Knurek's first game invention to make it to market, in 1989, was the outdoor game, Spikeball. His other game credits include *Family Fun* magazine's "Toy of the Year" award winners: "What's In Ned's Head?" and "Monster Under My Bed." Knurek also develops and licenses children's magic tricks and products for Las Vegas headliner, Mac King.

In 2008, Jeff Knurek became only the third artist to draw the popular Jumble puzzle cartoon, seen in more than 600 newspapers. He took over the art duties for Jumble, when the great Henri Arnold retired. Knurek's unique humor and style can be seen in the caricatures and fun pop culture references placed throughout his cartoons.

Knurek's hometown is Southgate, Michigan. He has lived throughout the Midwest, in Ohio, Illinois and Indiana. Knurek received a B.F.A. in Industrial Design, with an Art Education certification, from the University of Michigan. In 2007, he donated a kidney to a family member with Polycystic Kidney Disease, and both are doing great. Knurek currently resides in Fishers, Indiana, with his wife Kathy; and children, Sydney and Cameron.
