The Honorable Michael B. Enzi
Chair, United States Senate Committee on Budget

March 26, 2015

Dear Senator Enzi:

On behalf of the 200,000 technical professionals of the IEEE-USA, we urge you to oppose Amendment #646 to S.Con.Res. 11. This amendment is designed to expand the H-1B temporary work visa program. By addressing immigration policy changes in a budget bill, you would be precluding a real discussion about the merits of expanding this troublesome visa, and consideration of an expanded green card program, which IEEE-USA believes is a more promising avenue for encouraging skilled foreign-born workers to stay in our country.

The fact is that tens of thousands of H-1B visas were used last year to replace middle-class Americans with temporary foreign workers who will never be offered American citizenship. Amendment #646 would allow considerably more outsourcing of American jobs. In fact, by defining H-1B visas as a budget issue, the Committee would be proposing selling American jobs to outsourcing companies as a tool for balancing the budget and funding training for American workers for the jobs you just sold.

Please oppose Amendment #646.

Thank you.

Sincerely,
