

IEEE★USA ConferenceBrief

The IEEE-USA Conferences Committee Newsletter for IEEE-USA Co-sponsored Conferences

MAY - JUNE 2013 | Vol. 2, No. 2

Dear IEEE Member,

Although the calendar says it is spring here in the United States, we have had some strange weather – including snowstorms and cold temps that make one wonder...

Your bi-monthly edition of the IEEE-USA ConferenceBrief can help you determine other areas where you might go to participate in an IEEE-USA co-sponsored event! We hope that you enjoy this edition's news and calls for action related to IEEE-USA co-sponsored conferences throughout the year. If you know of a conference, seminar or workshop you think IEEE-USA should be co-sponsoring, or have an idea for a new one locally or nationally, please don't hesitate to contact me.

Best regards,

Charles Rubenstein (c.rubenstein@ieee.org)
Chair, IEEE-USA Conferences Committee

Call for Abstracts Extended

The deadline to submit abstracts for the [2013 Carbon Management Technology Conference](#) (CMTC) has been extended to 15 May 2013. For abstract submission instructions, [click here](#).

UPCOMING CONFERENCES

(please scroll down for details on individual conferences & events)

When	Where	Conference
1-2 August 2013	Portland, Ore.	IEEE Conference on Technologies for Sustainability
1-4 August 2013	Portland, Ore.	IEEE-USA Annual Meeting
10-12 September 2013	College Park, Md.	2013 Engineering, Security and Project Professionals Conference (ESP)
7-8 October 2013	Long Island, N.Y.	IEEE NewNEB DC Power Utility Conference and Exhibition
21-23 October 2013	Alexandria, Va.	Carbon Management Technology Conference
7-9 November 2013	Baltimore, Md.	IEEE International Conference on Wireless for Space and Extreme Environments
12-14 November 2013	Waltham, Mass.	IEEE International Conference on Technologies for Homeland Security
2-6 December 2013	Las Vegas, Nev.	2013 International Conference on Connected Vehicles and Expo (ICCVE)
7 December 2013	Brooklyn, N.Y.	IEEE Signal Processing in Medicine and Biology Symposium
23-24 May 2014	Chicago, Ill.	2014 IEEE International Symposium on Ethics in Engineering, Science, and Technology (Ethics 2014)

CMTC Call for Abstracts Extended to 15 May 2013

The deadline to submit abstracts for the [2013 Carbon Management Technology Conference](#) (CMTC) has been extended to 15 May 2013. CMTC will focus on engineering perspectives regarding key issues, including technologies, strategies, policies, uncertainties, and metrics for technologies designed to reduce carbon emissions. Experts, practitioners and policy-makers will share their findings and experience with the readiness, effectiveness, and implementation of options involved in meeting the carbon management challenges. Engineering expertise, experience, and perspectives are critical to developing a viable path to meeting these challenges. For abstract submission instructions, [click here](#).

CALLS FOR PAPERS, PRESENTATIONS, EXHIBITS & PARTICIPATION

[IEEE Conference on Technologies for Sustainability](#)

When: 1-2 August 2013

Where: DoubleTree by Hilton Portland (Portland, Ore.)

Website: <http://sites.ieee.org/sustech>

The goal of the 2013 IEEE Technologies for Sustainability Conference, co-located with the 2013 IEEE-USA Annual Meeting, is to explore the development and application of technology in these areas:

- Alternative energy
- Energy efficiency
- Electric vehicles
- Smart Grid
- Electronic materials
- Quality of life

[IEEE-USA Annual Meeting](#)

When: 1-4 August 2013

Where: DoubleTree by Hilton Portland (Portland, Ore.)

Website: <http://sites.ieee.org/ieeeusa2013/>

The IEEE-USA Annual Meeting provides an unparalleled training opportunity for IEEE's U.S. volunteers and members. Thursday and Friday's program will feature the inaugural IEEE Conference on Technologies for Sustainability with both academic and application-oriented presentations. Friday afternoon through Sunday morning the Annual Meeting program will provide sessions with training, workshops, networking, and the awards ceremony.

[IEEE NewNEB DC Power Utility Conference and Exhibition](#)

When: 7-8 October 2013

Where: Holiday Inn Long Island – Islip Airport (Long Island, N.Y.)

Website: <http://www.newneb.org/>

Following the theme “Reliable DC Utility Power – NERC in the 21st Century,” NewNEB technical presentations will be structured into 90-minute sessions of three papers each (20 minutes presentation, 10 minutes Q&A). Certain papers or topics may have double sessions and some of the allotted technical sessions may feature group presentations.

[Carbon Management Technology Conference](#)

When: 21-23 October 2013

Where: Hilton Alexandria Old Town (Alexandria, Va.)

Website: <http://fscarbonmanagement.org/content/cmtc-2013>

The 2013 Carbon Management Technology Conference (CMTC) conference will draw professionals from all engineering disciplines to share their expertise and provide their perspectives on the reduction of greenhouse gas emissions and adaptation to changing climate. The conference will focus on engineering perspectives regarding key issues, including technologies, strategies, policies, management systems and metrics. Experts and practitioners will share their findings and experience with the readiness, effectiveness, and implementation of options involved in meeting the challenges posed by greenhouse gas emissions. Engineering expertise, experience, and perspectives are critical to developing a viable path to meeting these challenges.

[IEEE International Conference on Wireless for Space and Extreme Environments \(WiSEE\)](#)

When: 7-9 November 2013

Where: Renaissance Baltimore Harborplace Hotel (Baltimore, Md.)

Website: <http://sites.ieee.org/wisee>

The conference will bring together investigators from NASA, the Canadian Space Agency (CSA), the European Space Agency (ESA) and other space agencies, along with industry and academic researchers, in an effort to understand and solve the emerging problems facing wireless sensing and communication in space and related extreme environments.

[IEEE International Conference on Technologies for Homeland Security](#)

When: 12-14 November 2013

Where: Westin Waltham Boston Hotel (Waltham, Mass.)

Website: <http://www.ieee-hst.org>

This annual event brings together leading researchers and innovators working on technologies designed to deter and prevent homeland attacks, protect critical infrastructures and people, mitigate damage and expedite recovery.

[2014 IEEE International Symposium on Ethics in Engineering, Science, and Technology \(Ethics 2014\)](#)

When: 23-24 May 2014

Where: Chicago Marriott O'Hare (Chicago, Ill.)

Website: <http://sites.ieee.org/ethics-conference>

Ethics 2014 will offer a rich scientific program of the highest quality with invited speakers from all over the world, and intends to bring together scientists, engineers, ethicists and practitioners from different disciplines to discuss questions and concerns related to ethics in science, technology and engineering. Issues will be explored both from a scientific point of view and from a social or individual aspect, including global, multicultural perspectives. The Symposium will enable participants to debate and reflect on issues facing scientists and engineers, and to address the importance of ethics in a diverse scientific and professional global community. Scientists, engineers and other professionals who have relevant experience to be shared are encouraged to participate in the Symposium which will provide a platform for exchange of views in three different formats: formal presentations, panel discussions, and small group discussions.

About the IEEE-USA ConferenceBrief

The IEEE-USA ConferenceBrief is prepared by the IEEE-USA Conferences Committee. Questions or comments about this Email Update should be directed to: IEEE-USA Conferences Committee Chair, Charles Rubenstein at c.rubenstein@ieee.org.
