

IEEE★USA CONFERENCEBRIEF

The IEEE-USA Conferences Committee Newsletter for IEEE-USA Co-sponsored Conferences

1st Quarter 2020

JOIN/RENEW

Happy New Year!

We are delighted to provide you with your first quarter 2020 IEEE-USA Conference Brief newsletter.

In 2020, IEEE-USA continues to offer a valuable portfolio of co-sponsored conferences and exhibitions -- assembled over the past seven years -- intended to address diverse areas of policy and professionalism in IEEE's technical fields of interest. Do consider making a presentation at, or attending, some of them.

We often get emails asking why one of your favorite conferences is not in our calendar. Our IEEE-USA conference calendar only includes those conferences or events IEEE-USA co-sponsors, or where it exhibits. As always, if you know of a conference, seminar, or workshop you think IEEE-USA should consider co-sponsoring -- or if you have an idea for a new local or national event -- please do not hesitate to contact us.

We are looking forward to seeing you at these events!

Best regards,

Bob Parro (conferences@ieeeusa.org)
Chair, IEEE-USA Conferences Committee

The IEEE-USA ConferenceBrief is produced quarterly by the team of Bob Parro, Georgia C. Stelluto and Greg Hill.

IEEE Conference Database

With more than 1,800 IEEE conferences each year, it may be difficult to find the right conference for your participation. IEEE has a search engine for all

conferences that are registered with IEEE. Use the "Search Conferences" block on the left to search conference dates or calls for papers, using keywords. You can also narrow the search down to a particular IEEE Region or country. Please note that until a conference fills out the IEEE Conference Exchange (ICX) registration form, and IEEE approves the organizational units that co-sponsor it, information about the event will not appear in the Conference Database.

IEEE SusTech2020

IEEE Conference on Technologies for Sustainability (SusTech 2020)

Conference Date: 23-25 April 2020

Location: Long Beach, CA

Web: <https://site.ieee.org/sustech//>

The 7th Annual IEEE Conference on Technologies for Sustainability (SusTech 2020) is designed to explore the development and application of science, engineering and technology in achieving a sustainable lifestyle for humanity. It brings together scientists, engineers, technologists and scholars from multiple disciplines to hold a dialogue on environmental issues and collaborate on ideas to develop and utilize innovative tools and intelligent systems to address them. Attendees will learn about the tools, connections and proactive solutions to take their sustainability programs to the next level.

The conference is a combination of academic papers and invited

speakers with specialties that are making an impact in the environment sustainability. Full papers will be published in the Conference Proceedings. Best Student Posters submitted for the conference will be eligible for an award.

Important Dates:

- Student poster abstracts deadline: 15 February 2020
- Early registration ends: 15 April 2020
